

About US

Because first impressions count, we design experiences for optimum impact.

Keeping change as the only constant, we help our clients build brand experience in the experiential spaces that find your audience and speak language not necessarily in words.

Our solutions are result oriented and delivered much before the nth hour time frame. Along the way, we've gained trust and confidence, of our clients and worked with them as their preferred event partners.

Over the last few years, our repertoire of events, showcase, impactful and tailor-made events for various corporate houses, media agencies and individuals across various cities in India.

Whether we're conceptualising, designing or executing, what we really love is solving unique needs of our clients. This could be a short delivery time frame, or a tech-savvy solution. We go ahead and deliver.

Interested? Then let's talk!!

Seeing is believing!!

AV'S & CONCEPT DESIGNING

Face off;

We're just a bunch of committed people who love our jobs. We love ideas, ideas, ideas, ideas, and endless cups of chai, although one is not remotely connected to the other.

We love Mumbai, trains, autos, by lanes, nukkads, dhabas where we can discuss anything and everything.

We believe in words that do not speak ..because we create brand experiences.

We love, Madhubala, and Marilyn Monroe...because they bring a gulp down our throat,
so hard to swallow.

We love technologies, because they are ecological sound tools that put you in the lead, in a play, that plays eight times a week, for however many months.

We love the impossible and keep on doing it again and again possibly, out of habit. We love the future because it is more like the crooked tooth that needs bonding.

We are endless energy and bloody minded perfectionists with an eye for detail.

We love Meryl Streep in 'The Devil Wears Prada' because it is about being in charge of things, and how the air in the room shifts when she walks in.

Interested?
